General Product Specifications

- Please attach material specifications data sheet (MSDS)
- Particle Size Distribution

	%

Bulk Density _____

Specific Heat of material _____

Feed rate of material _____ pounds per hour

Initial Moisture Content _____ %

Expected Final Moisture Content _____ %

Maximum Allowable Material Temperature _____ deg F

Operating Costs Parameters per Customer Utilities

Electricity Costs _____ \$ per kWh

Heating Medium (e.g. Natural Gas, steam) _____

Heating Costs _____ \$ per MMBtu
